COMING TO OPERA HOUSE TUESDAY NIGHT NEXT

The following comment on the
"Black and White Pierrots" which
comes to the local opera house Tues-
day night next, is taken from a re-
cent issue of the Lethbridge Herald:
"Come early and bring your chairs
with you." This is the slogan which
will be associated with the perfor-
mance of Frank Waddington's "Black
and White Pierrots." This in itself
speaks volumes for the popularity
of these entertainments have taken.
The program at St. Augustine's hall
was billed to start at 8:30 p.m., but
by 8 o'clock all the seats were taken.
The chairs had to be requisitioned
for later comers and placed where
they could be accommodated; others
had to be content with standing room
and late arrivals had to go back dis-
appointed.

There is not a doubt that the per-
formance warranted the attraction
and deserved the popularity. It was
a bright, clever, and exhilarating one
all the way through, and however ex-
cellent the last one was, the one given
last night went one better. As is
popular entertainer Frank Waddington
has a particular role and a dis-
tinct place in the city in contributing
to the gaiety of the citizens in a style
of amusement which is very differ-
ent from that of the stage. He has not only the native
gift but has the happy knack of gal-
lantly leading a group of entertain-
ers who fall into the spirit of the
occasion and give him his co-opera-
tion and support. And here let us pay
a tribute to Mrs. Waddington, who as
an accompanist, may worthily be
said to be the spirit in the perfor-
mance, in the very substantial help
she gave to make it so as it did. To
her accompaniment the performance
gives much.

REGULAR MEETING OF TOWN COUNCIL

The regular fortnightly meeting of
the local town council was held Sat-
urday evening, the mayor and full
council being present.

The minutes of previous regular
meeting were approved as read, and
the following accounts were passed
for payment subject to approval by
various committees: D. Walker \$5.25,
C. Forbes \$7.50, E. Salmeron \$18.20,
A. Rossi \$18.20, Alberta, Government
Telephone \$3.50, J. H. Davis \$27.00,
Canadian General Electric \$432.
98, J. Montalbetti \$4.75, B. Scott
\$20.50, J. E. Gillis \$166.06 (instal-
ment on purchase of town hall prop-
erty and interest), Blairmore Enter-
prise \$22.50, E. Hinds \$17.00.

A resolution to re-engage the Rit-
chie Paterson Co. as auditors for the
 ensuing year at a fee of \$325.00 was
passed unanimously by the council.

A report from the Electric Light
Department showed delinquent ac-
counts for service totalling \$229.05.
Considerable discussion took place
regarding sidewalk extension and
Works and Property Committee were
asked to confer with Contractor Poz-
zi.

BLAIRMORE TO HAVE BUILDING BOOM

Besides the daily programme of
moving a house into Blairmore, we
understand that an unprecedented amount
of building is planned for the re-
mainder of this year. At present
about ten dwelling houses are in the
course of erection, and now the con-
tract has been let for about \$300,000
worth of fireproof structures to be
built in West Blairmore. This pro-
gramme includes the building of an
by the Crown's Nest, Pass Motow, 515
feet, a large restaurant and large
two-story apartment building. The
contract for the above was let this
week to E. J. Pozzi, our local lumber
merchant and building contractor.
The plumbing contract in connection
with the above has been secured by
the Knappan Plumbing and Heating
Co. Work will commence at once
and will give employment to a large
number of men.

It is gratifying to know that these
contracts have been granted to local
bidders and that all money involved
will be circulated locally.

We understand that the West Can-
adian Collieries also figure on build-
ing a number of bungalows and col-
lages similar in type to those erect-
ed by them in West Blairmore dur-
ing the past few years.

JULY 1ST AND 2ND WILL BE GALA DAYS FOR BLAIRMORE

Arrangements are complete for the
big gala days to be staged in Blair-
more Friday and Saturday under the
auspices of the Rocky Mountain
Branch of the Canadian Mining In-
stitute, the Workers' Cooperative
Board and Town of the The Crown's
Nest Pass.

About twenty teams will enter for
the mine rescue competitions and a
fourteen for the first aid, in-
cluding several juvenile teams. Con-
siderable time and money have been
spent getting the grounds in readi-
ness, and nothing has been left un-
done that would tend to make the
event the biggest and by far the most
important ever staged in The Pass.
Teams and interested spectators will
be in town from practically all parts
of Alberta and British Columbia.

At 10 a.m. on Friday a grand par-
ade of decorated auto, accompanied
by a massed band, will open the pro-
gramme, following which the first
aid and mine rescue work will com-
mence and field work will be done
on the sports programme will be the
baseball, football and basketball
competition, which will be held
throughout the mining district will
commence.

Fully \$25,000 worth of prizes will
be awarded, including many cups
and trophies, which have for the
past several years been the property
of the Blairmore Pharmacy.

Finals in field events and mine re-
scue and first aid competitions will be
the main features of Saturday's pro-
gramme, and it is expected that Hon.
Charles Stewart, provincial premier,
will be present in the evening to
make the formal presentations to
the winners.

To accommodate the thousands of
people, refreshment booths will be
located on the grounds, where the Red
Cross and other organizations, while
every available room in town will be
placed at the disposal of the com-
mittee to accommodate those staying
over night. Besides, several sleep-
ing cars will be parked on the Blair-
more siding for the convenience of
visiting mine rescue and first aid
teams.

On Friday night a grand dance will
be given in the opera house, under
auspices of the Red Cross Society.
Tickets will be sold on the grounds dur-
ing Friday and Saturday and the net
proceeds of the two days' events will
go to Red Cross Fund.
Anyone having accommodation for
one or more persons are asked to
notify the committee, Mr. McLeod
and W. J. Bartlett, as early as
possible.

TEACHERS' APPLICATIONS CONSIDERED

The monthly meeting of the
Blairmore school trustees was
held at the schoolhouse on Monday
evening last. Chairman Duff and
members Beebe, Hamilton, McPhail
and Charrle being present.
The minutes of five previous regu-
lar meetings were read and approved
and the following applications were
favorably considered:

Miss McLaren for salary \$1200,
Miss McCauley \$1800, Miss Keith
\$1500, Miss Pinkney \$1300, Miss Mar-
quis \$1200, Miss Fulton \$1700, Miss
McLellan \$1300, Miss Gervin \$1400,
Principal Conway \$2700.

The resignation of Mrs. Stebbins
was received and the board passed a
resolution of appreciation of excellent
work during her two-years term in
the service of the board, and it was
also decided to advertise for a teach-
er with special qualifications for pri-
mary work to fill this vacancy.

It was also found that a vacancy
would occur in the west ward school,
and in view of the possibility of a
two-room new school being ready for
work in the west townsite at the re-
opening of the school term in Sep-
tember, other additions to the school
staff would be necessary.

Several applications for positions
on the teaching staff were in the
hands of the Secretary, and that of
Miss Mary E. Davis, of Truro, Nova
Scotia, was accepted as vice-principal
at a salary of \$1700. Miss Davis is
a first-class certificated teacher, qual-
ified for Nova Scotia, Saskatchewan,
British Columbia and Alberta.

The question of repairs to the
school grounds and fences, and also
the main building were discussed,
and in all probability the work of
erecting a substantial fence around
the grounds and stooping the school
building will be proceeded with.

Who and What Are We?

Is there such a person as a Canadian? The Government of Canada says there is not. According to the official records there is not one Canadian among the eight or nine million inhabitants of this Dominion. Neither the Premier of Canada, nor any one of the Premiers of the nine Provinces, is a Canadian. They may have been born in Canada, and their parents and grandparents before them, but that makes no difference; they are not Canadians. The Government of Canada says so, and has instructed its army of census officials to record the amazing fact.

Readers of the above may be skeptical of the truth of these assertions, but a little quiet inquiry and investigation on their part will soon establish the correctness of the statements made.

Commencing on June 1st the work of taking the decennial census of Canada was begun and enumerators began visiting the homes of the Dominion armed with official forms and pencil in hand asking questions of all and sundry as to their names, age, place of birth, nationality, etc. Coming to the question of nationality, a man or woman born in Canada, very naturally reply that they are Canadians. But Mr. Census-taker retorts that they are not. They may be anything else, but they most assuredly are not Canadians. When these patriotic sons or daughters of Canada insist they are Canadians, first, last and all the time, and nothing else, the faithful servant of the Government of Canada is forced to explain to them that there are no Canadians; the Government does not recognize them at all in the official tabulation of the nationality of the residents of the Dominion.

Mr. Census-taker will then ask: "Where was your father born?" "In Canada," comes the reply. "Where was your mother born?" Again the answer is, "In Canada." "Well, they are not Canadians either," is the dictum. And then, Mr. Census-taker will explain that Canada is not a nation and, therefore, there can be no Canadian nationality. He may then ask: "Were your grandparents, or possibly your great-grandparents, Irish?" The ordinary Canadian resident may retort: "What has that got to do with it? Ireland is not a nation." It is even less a nation than Canada. Canada enjoys not only full self-government, but it is a member of the League of Nations on a basis of entire equality with all other nations, which Ireland is not.

The logical force of such an answer is, however, entirely lost upon the Government of Canada. Residents of this Dominion may be classified as Irish, or Scotch, or Welsh, or Hottentot, or Chinese, or Turks—anything almost but Canadian, even though it is necessary to go back prior to the days of Jacques Cartier to find out some remote ancestor born outside the boundaries of the Dominion in order to fix some nationality upon native-born Canadians.

This is not a far-fetched description, because the writer has personal knowledge of an instance where a Canadian-born citizen informed the census enumerator that he had no knowledge of any ancestors but those whose place of birth was Canada, and who was, therefore, recorded by the enumerator as "Nationality unknown."

Yet our politicians and statesmen boast of Canada as a nation. In rounded periods and with great eloquence they dwell upon this Dominion's place among the nations, and the prominent part it plays in the councils of the League of Nations. On all sides exhortations are heard of our duty to Canadianize our new settlers from "foreign" lands. The Canadianizing of all peoples within our bounds is urged as a foremost Canadian duty and responsibility. Yet when the children of these "New Canadians" proudly say: "I am a Canadian," the Government of Canada officially tells them they are mistaken; they are Germans, or Russians, or Poles, or Austrians, or Italians, but they are not Canadians and never can be, nor can their children or children's children ever be throughout the ages yet to come.

Pick up the official census returns for all past decades and see if you can find that there is a Canadian living in Canada.

Is it not high time that this obsolete, antiquated classification of bygone years be discarded? Has the time not come when a person born in Canada has a right to be classified as a Canadian and not be compelled to accept official designation of some other nationality which he will never accept for himself personally?

What is the effect of this Canadianism and seeking to create and develop a Canadian national sentiment, Canadian art, Canadian literature, a true and lasting pride in Canada and Canadian institutions, if for all time the world is to be officially informed through the publications of the Canadian Government that such a person as a Canadian is non-existent; that this Dominion is still an infant colony of little or no importance inhabited for the time being by English, Scotch, Irish, Welsh, American, German, Austrian, Russian and other peoples? Canada talking of having its own Minister at Washington, sitting in the councils of the League of Nations, taking its full part in the Great World War, and yet denying to its own native-born sons and daughters the right to the name Canadian presents an anomaly that should be removed. The Ottawa Government had better besit itself and place itself and the official records of this Dominion in line with real Canadian sentiment and aspirations.

Aviation In The West

Forty Planes in Operation in Prairie Provinces.

Edmonton will be the headquarters for the government's aviation inspection work in the four western provinces, according to A. G. Goulding, western representative of the Air Board, who has just returned from a several weeks' trip to the Pacific coast. As an illustration of what progress the air-flying game is making in the west, it is stated that 40 planes are now in operation between the Great Lakes and the Pacific.

"Your Teeth"

TOOTHACHE

Copyright, 1921, by Rea Proctor McGee.

One of the most peculiar things about toothache is that in three out of four cases the tooth that seems to ache is innocent.

The teeth seem to act like a large family of children. When one of them raises Cain he blames it on the other.

So don't be surprised—when you go to the dentist and confidently tell him that the tooth upon which your finger is resting is the one that is causing the trouble—to have him make a few tests and tell you that it is another tooth, probably far distant from the one that you suspect.

There are so many different forms of toothache that each person probably has a different experience from anyone else. There are even times when it is very difficult really to say that the pain that is being suffered is a toothache, although almost everyone thinks that there would be no difficulty whatever in recognizing this particular form of pain.

In addition to pain directly about the teeth, an aching tooth can cause pain in the ear, or in the eye, or almost any form of headache, facial neuralgia or pains in the neck or arm.

The evil result of an aching tooth is not so much the pain inflicted on the patient at the time as it is the harm done to the general system by the absorption of pus from the infected root of the tooth.

It is quite true that not all aching teeth are abscessed, because the slight exposure of the pulp will result in sharp pain.

But this exposure is bound to result in the death of the pulp, and so will have the following in the train of this pain the certainty of infection, which means abscess. There are even cases in which the pulp is exposed, but, from some form of irritation—such as a tooth being bitten upon too hard, or being exposed untemporarily to extremes of heat and cold, or being ground down from crowns or bridges—the infection will be postponed.

When the pulp dies it immediately begins decomposition. This causes the formation of gas—which in turn makes very high pressure upon the nerve filaments that supply the pulp—and the pressure is carried back over the main branch of the fifth nerve where it may be relayed to many parts of the body, so that from the reflex pressure at the tip of the root of a tooth you can have pain in almost any part of the body.

This is in addition to the pain and the pains that result from the actual absorption either of pus or of pus products.

An aching tooth is not only uncomfortable, but it is also very dangerous.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; break up colds and simple fevers—in fact they relieve all the minor ills of the little ones. Concerning them Mrs. Macdonald, Makinik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

New El Dorado in B.C.

A CORDIAL INVITATION TO DISEASE

This is an apt description of Constipation. It's an unnatural condition to begin with—but it's dangerous because it leads to indigestion, fills the system with poisons, brings on anemia. You don't need a purgative, you don't want to weaken the system by a harsh gripping medicine—what you need is mild natural "stimulant" for the bowels. You get this from Dr. Hamilton's Pills, which tone up the liver, restore bowels to perfect action and positively strengthen your system. You'll find tip top after regulating your system with Dr. Hamilton's Pills. Good for young and old—a real family medicine. 25c all dealers or The Catarhizone Co., Montreal.

The first shipment of match splints from Pembroke, Ont., consisting of 520 million untrimmed matches, left for England recently on the Empress of Britain. Heart Weak, Nerves Shattered After the "Flu."

In a large majority of cases those who survived the last epidemic of Spanish influenza were left with weak hearts and nerves, impoverished blood, and the whole system has been left in such a general weakened and exhausted condition that it has been impossible to get back your old health and strength.

If you are in this condition there is only one thing to do, take a course of Milburn's Heart and Nerve Pills, and see how quickly your heart will be strengthened, your nerves toned up and your blood enriched.

Mrs. W. C. Pearce, 14 Seaton St., Toronto, Ont., writes: "I was left with a weak heart and in a rundown condition from the 'flu.' My nerves were badly shattered, and I had such pains in my heart I could not sleep much at night. I took several doctors' medicine, but nothing getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief at once. After six boxes have been well and not bothered since."

Price a box at all dealers or mailed direct on receipt of price to Dr. J. Milburn Co., Limited, Toronto, Ont.

Wear Your Clothes Longer Buy Bully Beef and Dodge the Cost of High Living.

Retailers seem to have the best just now of the discussion as to the cost of living.

Butchers state and seem to be able to prove their case that many consumers who are objecting to the high prices of meat, refuse to consider any but the choicest cuts, so that the canny housewife gets the pick of the most desirable meats, though not the most aristocratic joints, and feeds her household at almost pre-war prices.

It is noted by many provisioners that a good demand is coming up for corned beef in cans. The "bully beef" of the soldier, this wholesome and economical meat is selling in large quantities. Perhaps soldiers are home some for it. Despite this revived interest in cooked corned beef, it is far as yet from its pre-war sales.

Commenting on published statements of the cost of living, a well-known food economist recently claimed that comparisons of prices were most misleading.

For instance even though sardines, formerly selling at 30c now fetch 50c, this does not increase the cost of living by 66 per cent. to the person who buys, as the latter is now sold at about pre-war prices. Moreover, adding this high authority, the same applies to many other items.

Talk clothing for example, even if a suit costs 30 per cent. more, this does not increase the necessary expenditure 30 per cent. of one who is satisfied to wear his clothes longer.

In other words, at the present time, it is possible to live on much lower costs than the published figures of comparative prices would indicate.

So, eat "Bully Beef," wear your old clothes and beat the cost of high living.

When It Is "Too Warm To Eat"

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Many physicians will tell you that patients who have gone along fairly well all winter complain of feeling rundown in the fall of the year after a summer that has, perhaps, even included several weeks' vacation.

"It's too warm to eat," complains mother to me one warm day last summer. "Youngsters eat scarcely anything for breakfast and care for very little rest of the day. They always feel so rundown after a warm vacation that I had to see the cold days come on again, for the kiddies always fatten up during the cool days and feel so much better."

It must be admitted that we desire less food in hot weather than we do in cool weather. But the processes of life go on just the same in summer as they do in winter. Children have need of the food that makes for growth and development and adults have need for food which shall replace the worn out by just living—breathing or by using strenuous work of bathing in the ocean, or playing tennis, or working in the office.

A little more strenuously because so many are off on vacation.

It is, therefore, up to the mother of the family who has the welfare of her family at heart to see to it that the members of the family get nourishing meals at regular intervals in summer just as in winter. True, the quantity of food served may be reduced. The type of food, too, may be altered somewhat. For instance, a dish of fresh sugar peas or pineapple or berries is a better choice for dessert on a torrid day than the mince pie of Christmas time.

Again, it must be remembered that in some form of food is necessary in the diet. Even in the tropics, where a low diet of rice is used, fat, if only a little, in some form has to be added in order to maintain health.

Mutton steaks, with its generous fat, is not an appropriate dish for a warm day. "Putnam" steak and more. To remove cramps, to get entirely free from them, use Putnam's Corn & Wheat Extract. 25c at all dealers. Refuse a substitute.

Mr. Herbert Osborn Tells How Cuticura Healed His Wife

"My wife began to be troubled with itching and burning of the palms of her hands and the soles of her feet. Later the skin cracked and became itchy, swollen, itching, and even standing very painful and preventing sleep at night. Later it became necessary to bandage both hands and feet."

"She was treated but obtained no relief. She saw an advertisement for Cuticura Soap and Ointment and sent for a free sample. She bought more and after using two boxes of Cuticura Soap and two boxes of Cuticura Ointment she was healed." (Signed) Herbert Osborn, 135 Sherbrooke Ave., Ottawa, Ont., Sept. 3, 1919.

Lord Curzon Makes An Unexpected Attack On League of Nations

London.—An unexpected attack was made on the covenant of the League of Nations in the House of Lords by Lord Curzon, secretary of state for foreign affairs. He declared that many existing international difficulties were due to the Allies having taken the wrong turning in the making of peace and he uttered a strong appeal for the United States' utmost co-operation with the Allies.

The foreign secretary, in the course of a general discussion on mandates admitted that parliament was entitled to more information, but he said this was a subject involved in obscurity. The language of the covenant was such that not even a trained lawyer knew what it meant. Lord Curzon was inclined to think there was a mistake in policy when the Allies met in Paris, in their extreme desire to get the League of Nations on the international statute book. They rushed almost with precipitation, he said, to make decisions which it now was seen would better have been solved by being postponed. He could not help holding the opinion that it, instead of taking up better regulation of world, they had at the close of the war, desired to secure the peace of the world as it then was and "we should have been much further advanced in the conditions of peace than we now are."

Canadian Coal Sent To France

Ships Unable to Obtain Coal From British Ports.

London.—Ten steamers have delivered cargoes of Canadian coal at Cherbourg, France, according to the correspondent of the Times. This coal, the correspondent says, is used to bunker ships which are unable to obtain fuel in British ports owing to the miners' strike.

Denounce Sinn Feiners

Addresses Given at Meeting of Irish Colonial in Toronto.

Toronto.—A meeting was held in Cook's Presbyterian Church here to celebrate the opening of the Ulster Parliament and a number of addresses were given denouncing the Sinn Fein in the United States as propagandists whose aim was to create friction between America and Great Britain to destroy civilization.

Rev. Dr. McEldown, president of the Ulster Society of Pittsburgh, said that the bulk of the people of the United States are heart and soul with you in the belief that the Sinn Fein in the United States have absolutely no right to interfere in the affairs of Great Britain or attempt as they are doing to break up the peace of the world.

Chinese Provinces Hostile

Canton.—Hostilities have broken out between the provinces of Kwangtung and Kwangsi, in Southern China. The Kwangsi forces began the fighting by firing the first gun in the Ling Shan district. British ships are submitting to search in the west river at Canton through the co-operation of army and customs officials.

Brilliant Scene Marks The Opening Of Ulster Parliament

King George Makes Plea For Peace Between Two Branches of Irish Race.

Belfast.—The opening of the Northern Parliament by the King, who was accompanied by Queen Mary, was carried out with all the pageantry and ceremony with which formal actions of British sovereigns are surrounded. The King himself wore the uniform of an admiral, with the blue sash of the Order of the Garter across his breast, while the Queen, who looked extremely pale and nervous, was in white satin, without any insignia of her rank. But a string of pearls about her neck and large clusters of diamonds and emeralds shone from her collar and brooch.

A real modern note was struck by the King's speech, which he read in a strong, clear voice, emphasizing the points which he wished to impress on the audience. His plea for peace and conciliation between the two branches of the Irish race fell on welcome ears, for, in no part of Ireland is peace more desired than in Ulster, where business has suffered greatly by the strife throughout the country and by

Albania Appeals To League of Nations

Ask for Public Hearing of Grievances Against Greece.

Geneva.—The first case in which the competency of the League of Nations in international differences is questioned, has arisen in connection with Albania's demand that Greece and Yugoslavia evacuate Albania territory.

The Albanian delegation here has filed a memorandum with the league in which the Albanians reiterate their grievances against Greece and Yugoslavia and ask for a public hearing on them. Efforts are being made by the Greek and Yugoslav representatives to take the case out of the hands of the league and have it settled by the Council of Ambassadors on the ground that the ambassadors already have occupied themselves with these questions and are better able than the Council of the League of Nations to deal with them.

Date Set For Alberta Election

Premier Stewart Makes Announcement and Issues Manifesto.

Edmonton.—Writs are issued calling for a provincial election in Alberta to be held on Monday, July 18, with nominations one week earlier, on Monday, July 11.

This announcement was made by Premier Stewart after full consultation with the other members of the executive council. The official manifesto to the electors of the province was also given out by the Premier outlining the reason for the holding of an election and the policies upon which the Government appeals to the province for support.

Sixty-one provincial constituencies will be involved in the election, provision having been made at the last session of the legislature for five members each at large for Edmonton and Calgary, instead of three members as formerly. Medicine Hat, was given two members instead of one.

The last legislature consisted of 58 members, including two seats for soldiers' representatives at large, these being abolished under the amendments of last session. Instead of being deferred as in previous elections the northern constituencies of Peace River and Athabasca will vote on the same day as the remainder of the province this time.

Press Misquoted Admiral Sims

Washington.—Rear Admiral William B. Sims reported personally to Secretary Denby that he had been misquoted in press accounts of remarks made in London touching on Sinn Fein sympathizers in the United States. The officer was recalled from leave of absence to explain these remarks, and Secretary Denby directed him to make a written statement giving a correct statement of what he had said.

The Sinn Fein boycott of Ulster goods by prominent members of the press the whole audience remained standing, with eyes fixed on Their Majesties in golden chairs. Prior to this, prayers were said by the Primate of Ireland, Anglican, the Presbyterian, moderator and the senior Methodist minister, thus all the religions represented in the Parliament were recognized.

The Nationalists and Sinn Feiners confined themselves to refraining from all participation in the ceremonies.

The King and Queen re-embarked on the royal yacht, receiving a noisy greeting from the shipyard workers. The King conferred honors on a number of prominent Belfast men. Barrowby was created a Viscount, and Lord Mayor Coates, a baronet. Robert Blair, managing director of the Belfast Telegraph and Trevor Henderson, director of the Belfast News, received knighthoods.

This May Mean Cheaper Money

Ottawa.—News of the reduction in the Bank of England discount rate to 6 per cent. was received with interest by the financial officials here. The Minister of Finance had no comment to make on the reduction, but it was pointed out by an official that banking interests were more directly concerned. Another official stated that as London was the gold market for the world, the Bank of England acted as a barometer in the supply available. Cheaper money would result from the reduction.

U. S. Would Welcome Canadian Envoy

Appointment Will be of Interest to Both Nations.

New York.—The United States will be pleased to see a Canadian minister at Washington says the Tribune commenting on reported statements before the Imperial Conference.

"The new Canadian minister will apparently be a member of the diplomatic corps on the same footing as the ministers from other American or European states," the Tribune says, and concludes: "Whatever the nature of the changes in Canada's external relations, the United States would be pleased to see a Canadian minister at Washington and a United States minister at Ottawa. We have the same broad interests and the same world point of view as our northern neighbor. It is to the interest of both nations that they should be brought into still closer economic and political co-operation."

Denounces Handling Of Immigrants

Director of Protective Association Says System Wrong.

Ottawa.—Denunciation of the system of handling immigrants arriving in Canada was again made by Abbe Philippe Casgrain, director of the Immigration Protective Association here. He is able cited instances where whole families have been deported and returned to the Old Country where they have no homes now to go to, and where they must start life again under worse conditions than ever, having wasted their savings in a useless and expensive voyage.

The abbe suggested that some way should be devised of officially examining immigrants in the Old Country.

Interest Shown In British Census

Statistics Believe Population Has Grown Despite War Losses.

London.—Statistics are looking forward with unusual interest to the returns of the British census and wondering what the war has really done to the British Isles. They believe the population has grown appreciably despite war losses, largely because emigration was checked by the war.

The first British census was taken in 1801 and has been repeated every ten years since then. This is, therefore, the thirteenth census of British Isles. Over 38,000 enumerators are engaged.

Settlers For B. C. Will Be Selected

Choicest Lands In Province Offered As Inducement.

Victoria.—Hand-picked settlers are to be brought to British Columbia in large numbers to fill up the vacant lands in northern and central parts of the province, according to plans just completed by owners of large areas, it is stated. Most of the owners of these lands are in England.

Some of the choicest lands in British Columbia will be offered settlers, who will be given their choice of locations in the Bulkley or Nechako valleys, or in the Vanderhoof, Prince George and Lillooet districts.

People Give Haig Ancestral Home, London.—Blenheim, near Marlborough, Scotland, the ancestral home of Field Marshal Earl Haig, and from which he takes a part of his title, has been purchased by public subscription and has been formerly handed over to him. His Lordship, in a moving letter of thanks, said: "An old dream of mine, rather than a hope has been realized in this gift."

Ulster Parliaments Adjourn. London.—The adjournment of the Ulster Parliament has both under the September 20. The senate, before adjournment, nominated six members, including a peer and a laborite, to the council of all Ireland to be established under the Home Rule Bill.

Opens Irish Parliament

King George V, who, accompanied by Queen Mary, visited Belfast, and delivered a message to the Irish people.

When Chief Justice Archie McDonald ordered me to take charge of the Fairford Post, his instructions were to complete the new master's house as soon as possible. Then I was to remove everything of value in the old house and to burn the old house, which had been up for many years. I was rather curious to know the why and wherefore as to burning the place, so I asked him his reason. "Oh," was his reply, "there are some fool stories current at Fairford as to them being haunted, for some bloody rows took place there in the old drinking days."

Well, I reached Fairford all right and took possession of the place. I put an extra man or two on the new building and after settling down began making a few cautious inquiries as to what shape (if any) the spooks were supposed to take. Very little satisfaction was given me, but I noted that Indians and the usual hangers on did not like to be near or in the post after dark.

This establishment was built in the usual way in the form of a quadrangle and surrounded with a wall of hewed timber, at one end of the square the master's house and on each side various stone houses, which the front was shut with the wall and large gates. The native men's houses stood at some distance away outside the enclosure. I and my cook, a Lewis man named Malcolm, were the only occupants of the place at night; not though the only ones, as I always had my four famous dogs, Herod, Nero, Moro and Hero, who, if anyone touched me, would have had a bad time of it, as they were exceedingly fierce if set on to any person or animal. I forgot to mention that a platform of heavy sawn planks ran all round the square and most of these were old and rotten so one had to be careful in stepping for they would tip up and come down with a bang.

One evening, when the place was all quiet, Malcolm came in from the kitchen and I saw by his embarrassed manner that there was something on his mind. "Welcome, master," he said and was as far as he could get. However, I encouraged him, and bit by bit the truth came out. He wanted to go and sleep in the men's houses, and on asking his reasons, he said he kept hearing noises at night and also felt things moving, though he could see nothing. He hated to go and leave me alone, but he could not sleep the way things were going on. I finally

Active Immigration Work Is Delayed

Settlers Will Not Be Brought In By Western Canada Colonization Association Until The Provincial Land Listing Legislation Preparatory Work Will Continue.

At a conference between the Eastern and Western Directors of the Western Canada Colonization Association it was decided that the successful functioning of the Association depends upon the working out of a joint land settlement plan under which the efforts of the Federal and Provincial Governments will be effectively co-ordinated. Nothing short of such a plan will afford this Association a real basis upon which to carry out the vital national undertaking for which it was created. It is felt that the organization would be unable to expend a large amount of money in securing high-class settlers only to find the lands increased in price on their arrival. It is realized that all promises and statements made by intending settlers must be fully carried out.

Until these suggestions are given effect so that there will be a reasonable assurance of results in actual land settlement, the directors do not feel justified in authorizing the expenditure of privately subscribed money which would necessarily be involved in a first year's programme. The obligations of the Association to voluntary financial supporters of this movement are such that it must not spend funds generally donated until the pathway of effective colonization is reasonably clear.

In the interval which must elapse before the proposals can be put into effect the Association will continue to press for the co-ordination and legislation necessary, and endeavor to complete the full subscription list of \$1,500,000. The directors hope that the Federal Government will be represented at a proposed conference of Western Premiers and that as a result a uniform plan will be put into operation which will solve the unoccupied land problem and enable the Association to get to work.

Before leaving for Vancouver—the Managing Director, Major-General A. D. McRae, C.B., made a brief statement to the press, in the course of which he said: "I agree with the decision unanimously reached by the Eastern and Western Directors after the most serious consideration of all the circumstances. I am very proud of the splendid support which I have received from the members of the Board, particularly in regard to my land listing plan. In their view, as in mine, the legislation asked from the three Prairie Provinces is absolutely necessary to success. This or similar legislation must be put into effect before the unoccupied land problem is solved. The participation of the Federal Government is most essential. During the interval the association, of course, will have no need for the services of a Managing Director in charge of actual colonization work. Although referring from my connection with the Association I have agreed to assist in pressing for the proposed legislation before the coming conference of Western Premiers. Knowing something of past immigration movements to the prairies I make bold to say that if given the proper basis to start on the Western Canada Colonization Association has within it the power to greatly assist the Government in the colonization of our unoccupied lands."

The furs were untouched, being wrapped up in canvas, but half of a beautiful cow buffalo robe and half a rabbit skin robe were eaten. Never mind, I was too pleased to see the dog again, rewarded the boy handsomely and returned to Fairford in great style next day, the dogs in as good a humor as myself; and then I promised never again would we admit a stranger to our ranks.

Automobile Price Reductions Of Western Interest

All-Canadian Car Proves Itself.—New Rock Levels Anticipate Quantity Reduction.

Western Canada development depends so much upon the extended use of motor cars that recent price reductions interest someone in practically every family in the West. That, for instance, of the Overland, less than a thousand dollars at the Toronto factory is of wide importance. New rock-bottom levels were calculated to be necessary if a complete return to normal conditions was to be accomplished. In the case of the company making the car cited, normal conditions involve factory production on a large scale.

This quantity production was attained last year. It will be remembered that when the Overland Company introduced the Model Four, the official departure in spring suggestion was looked upon as a marked development in light car construction. Much was, therefore, expected of this all-Canadian car. It has now had a year's proving by thousands of Cana-

adian owners, who bought it for its appearance and its quite evident engine efficiency and comfort. They have found it also possessed of unexpected great stamina and economy. Getting 25 to 30 miles to the gallon of gasoline, it was found to be the average experience of owners—some reporting even 35 miles. Ten to fourteen thousand miles with a single set of tires is also common, so that the all-Canadian car has thoroughly proved itself, perhaps the best value for more than in Western Canada.

The 1921 car has many improvements and according to Willys-Overland officials, they expect a demand sufficient to keep the factories busy right along. In fact, it is stated that it is upon this expectation that they have based their new prices. Reports from both Winnipeg and Regina branches of this company show a marked stimulation in business during the very first month of the reduction.

It was several weeks before the new residence was ready for occupancy, and during this time I constantly heard the same heavy trampings and other noises, and there was no doubt the dogs were affected, as generally they were joyous creatures always ready to sport or play with me. However, as no ill-effects occurred, I became used to the racket and yet was glad enough after vacating the premises to put a torch to the old fort.

During the same winter a mysterious light accompanied me for some hours on Lake Manitoba, which by its presence, affected my fearless dog, the same way, but this I have described fully in a former article, entitled Indian Witchcraft.

Australia Better Buyer Than States.

London.—Premier Hughes, of Australia, in a speech here, said that in 1920 Britain's colonies purchased \$180,000,000 worth of British goods. On a per capita basis an Australian, as a customer, was worth to Britain \$18. American purchases from Britain in 1920 amounted to 14 shillings per capita.

A Question

Joseph and Isaac went to hear Billy Sunday preach, and after service, as they were going home, Joseph said:
"Vell Isaac, vot you tink of him?"
"I didn't like him," said Isaac.
"Too much hell. It was hell, hell, hell, all the time. And I don't believe there is any hell, Joseph."
"No hell," asked Joseph, in amazement.
"No," answered his friend.
"Vell, then, Isaac," said Joseph, "if there is no hell, where is hisness gone?"

Interest Renewed by Red Cross Drive

Returns from all over Alberta for the Red Cross war relief campaign are gradually being received by the Provincial Headquarters. In many districts the executives are not anxious to turn in their lists until they have got the very last possible member. Even in the larger centres some of the returns are not complete, but sufficient numbers have been recorded to assure success. The campaign was hardly over when the Red Cross began to receive numerous appeals for help. These have been chiefly from the districts where the cotton worms had damaged the crops.

The Red Cross Headquarters is decentralizing their system of relief. This will put responsibility on the individual members of Red Cross units in various districts. Cases for relief must be carefully investigated by them. Reports of needy cases are being investigated and attended to every day with promptness. The campaign has renewed interest in Red Cross work throughout the province. Everywhere there is a realization of the scope of the work which the Society has in hand. "Not only your dollar, but your interest and support" has been one of the successful slogans of the campaign.

Paper

There is money kind of papers such as news, rapping, note, wall, oil, waste and others to numerous to mention.

Perful often gets rapped in the newspapers, but good storkkeepers don't rap nothing in newspapers, but have rapping paper.

Note paper is used in rapping paper. When you send a darning note on note paper, you really don't care how hard you rap.

Paper is used by sun authorities to keep perful war, especially note paper. My paw sez a 30-day note of his kept him in a sweat for a hole month onst.

Wall paper is rowful mostly for landlords to raze rents on. They raze it one when they promise paper your door and raze it again when they do it—The Office Boy.

A loaf of bread saved the life of an inebriated Italian citizen on Friday evening last. While passing in front of The Enterprise office, the fellow lost his balance and stumbled headlong. A loaf of bread carried in his hand, prevented his face from contact with the sidewalk. On getting up a complete impression of the fellow's face was left in the loaf.

Though she is 121 years of age, and claimed to be the oldest Filipino woman, Thomas Carlos smokes cigars and cigarettes.

The Crows' Nest Pass Motors report having unloaded and disposed of a carload of Chevrolets in one day this week.

The town council sat as a court of revision on Wednesday forenoon to consider appeals against the 1921 assessment. Only one small adjustment was necessary.

Most of the prizes on exhibition in the windows of the drug store were presented by Mr. J. Charbonnier, managing director of the West Canadian Collieries.

John Dobek, of Bellevue, was fined \$300 and costs for having in his possession apparatus used in the distillation of spirituous liquors and a quantity of the manufactured goods.

Press Opinions on "The Pierrots"

"The performance was a bright, clever and exhilarating one all the way thru."

"The Pierrots are just as clever as ever."

"Frank Waddington's entertaining is one which never, staves and gives the audience the appetite that craves for more."

"Geoffrey Waddington, the boy violinist, gave an exquisite rendering of humoresque."

Chester Wondered

Mother did finally succeed in getting father to go with her and little Chester to church. When they had returned home, the inspired Chester chirped: "Mama, you said heathens don't wear clothes." To this, mother replied: "Yes, that is right; they don't." "Well, then, why did pa put a hat on in the contribution box?"

Hillcrest Happenings

(By our own dear Felix)

We still have the greenhouse. Jack Makin is building an addition to his residence on Mayfair Avenue.

Our plantations are still one hour ahead of any others in the district in growth.

Mr. Warriner, from England, is paying a visit to his brother Alex N. Warriner, here.

It is reported that Jack O'Neill intends entering into partnership with Professor Conway, the floating-ball expert.

S Jennings looks as if he intends going into the poultry business and is putting some finishing touches to his hen coops.

The post office and bank, both in one block, are looking much better now that they have been treated to a first coat of paint.

As the new houses on Rotten Row are nearing completion, a new bell has been ordered for the church, and it will be needed.

Joe Fumigall is erecting a fine new garage, where in the near future we can get our gasoline and auto and other accessories and repairs.

Word has been received that Mrs. W. Prescott, of Peaceful Valley, who left some time ago on a visit to the Old Country, set sail for Canada on the 17th and is about due to reach here.

Conversation overheard on the verandah of one of our leading hotels the other night: "Won't it be nice when the houses in Rotten Row are finished and we can see the residents swinging in their hammocks; when we have the lights leading to the station; all the rotten trees cut down and the stumps removed, and a road into the village fit to walk upon, without fear of breaking our wickets." Just then something dropped from the roof, striking the speaker on the head. The latest bulletin announces that he will "recover if no complications set in."

Last evening's baseball game at Hillcrest with Blairmore had to be called off on account of the rain storm at the beginning of the third inning, when the score stood one-all in Hillcrest Bellevue favor.

The newspapers tell of a man who wrote a will naming six bank ers to be his pall-bearers. "They have carried me for twenty years," he explained, "and they might as well finish the job." We would suggest that our resident bank managers organize immediately.

Government road repair gangs have succeeded in converting the best piece of road in the province into absolutely the worst. That piece is from Brocket extending across the Pelgan Reserve to MacLeod, which was graded last spring and this spring was in perfect condition. Now the whole surface has been plowed up and loosened and with the prevailing west winds it's a safe bet that about a foot of that soil will in the course of a week or two without rain have drifted down to make ninety per cent of the road to Medicine Hat literally impassable. Grading prairie roads when there is little prospect of rain, and every prospect of wind is simply money thrown to the winds.
